Total Government Payment for mammography procedures in a catchment area ranged from a low of \$826 to a high of \$62,661. Total Government Payment for all mammography procedures for FY 1991 was \$1.3 million. Only one percent of these were institutional claims. Fiscal Year (FY) 1991 data were used to provide the most current data corresponding to the facilities' budgets. Appendix A is the summaries, by billable medical treatment facility catchment area and by type of professional service, of each mammography procedure's total government cost and total number of services performed during FY 1991, followed by the total of these costs and number of services for all three of the mammography procedures.

Executive Summary

This Consultation Report presents the totals of government costs and number of services for each of three CPT-4 mammography procedures grouped by ambulatory and inpatient professional services performed within Army billable medical treatment facility catchment areas during Fiscal Year (FY) 1991. Total Government Payment for mammography procedures in a catchment area ranged from a low of \$826 to a high of \$62,661. Total Government Payment for all mammography procedures for FY 1991 was \$1.3 million. Only one percent of these were institutional claims.

Government cost for each of these procedures per patient encounter was estimated by dividing the total amount allowed for the service by the total amount allowed for the claim, and then multiplying this ratio by the total government payment for the claim. Transactions having no government cost, no patient cost, and no total amount allowed were deleted prior to summation, as well as those where the fiscal intermediary denied the claim. FY 1991 data were used to provide the most current data corresponding to the facilities' budgets.

Appendix A is the summaries, by billable medical treatment facility catchment area and by type of professional service, of each mammography procedure's total government cost and total number of services performed during FY 1991, followed by the total of these costs and number of services for all three of the mammography procedures.

This report is the first in a series of Gateway to Care Management Analysis Reports.
